

Designer | Coder | Strategist

With over 10 years professional experience, I am precise and meticulous, specialising in all things digital.

With a broad skillset I have the ability to fit seamlessly into any digital project from UX to Frontend development.

My eye for detail, creative flare, extensive coding knowledge and wealth of experience have led me to work on award winning projects including E.ON, The Army, Met Police, Viacom, Bourne, RBS, Refinitiv, Hilti, Dantons, Arcadia group, DHL and Barclays.

Clients – April6 – Mavericks – Tonic – TBWA – L'Oréal

L'Oréal – Email dev/Digital design

Sep 2021 - Mark 2022

Identifying, designing and building email triggers for L'Oréal brands, including; YSL, Lancome, Armani. Using CRM best practices, I identified gaps within their current customer retention processes, then designed and built the html. L'Oréal's brands have different requirements, look and feel but many of the same customers. Meticulous effect was given to arrange and design the triggers to not overwhelm users and encourage sales

Tonic – Technical lead/UX/Service design

Oct 2020 - March 2022

Providing Technical direction to digital projects. Recent clients include SSCL, Fifa, Curry's. Duties include managing digital resource, UX design for specific executions and service design for project direction from a technical design point of view.

Mavericks – UX/UI

Oct 2020 - March 2021

Design and build of DHL's careers website. Working with their templated CMS I evaluated available features and modules to build out each page. As modules were fixed, UX decisions were applied and tested directly on-page, extending their capabilities to create a usable, bespoke and accessible website.

April6 – UI designer/Digital designer

Oct 2020 - Aug 2021

Working with several different car manufacturing clients including Distrigo, Scania and Skoda. Work included print ads, social media assets, video animation, html5 banners and email templates.
